Head's Message

Dear Parents/Guardians

As we begin June, we enter the final phase of the academic year. This month provides an important opportunity to consolidate learning, reflect on progress, and prepare students for their next steps with confidence and clarity.

Throughout the year, our students have demonstrated remarkable growth, not only in their academic development but also in their social skills, independence, and overall confidence. It has been a privilege to witness their curiosity, enthusiasm, and resilience in everyday learning experiences. This last month will allow us to reinforce these learnings through revision, structured activities, and meaningful classroom engagement, while also celebrating their efforts and achievements, both big and small.

Alongside academic consolidation, teachers will continue to create joyful and supportive learning spaces where students can express themselves and enjoy the remaining weeks of the term. We believe this balance helps children feel secure, motivated, and proud of their journey so far.

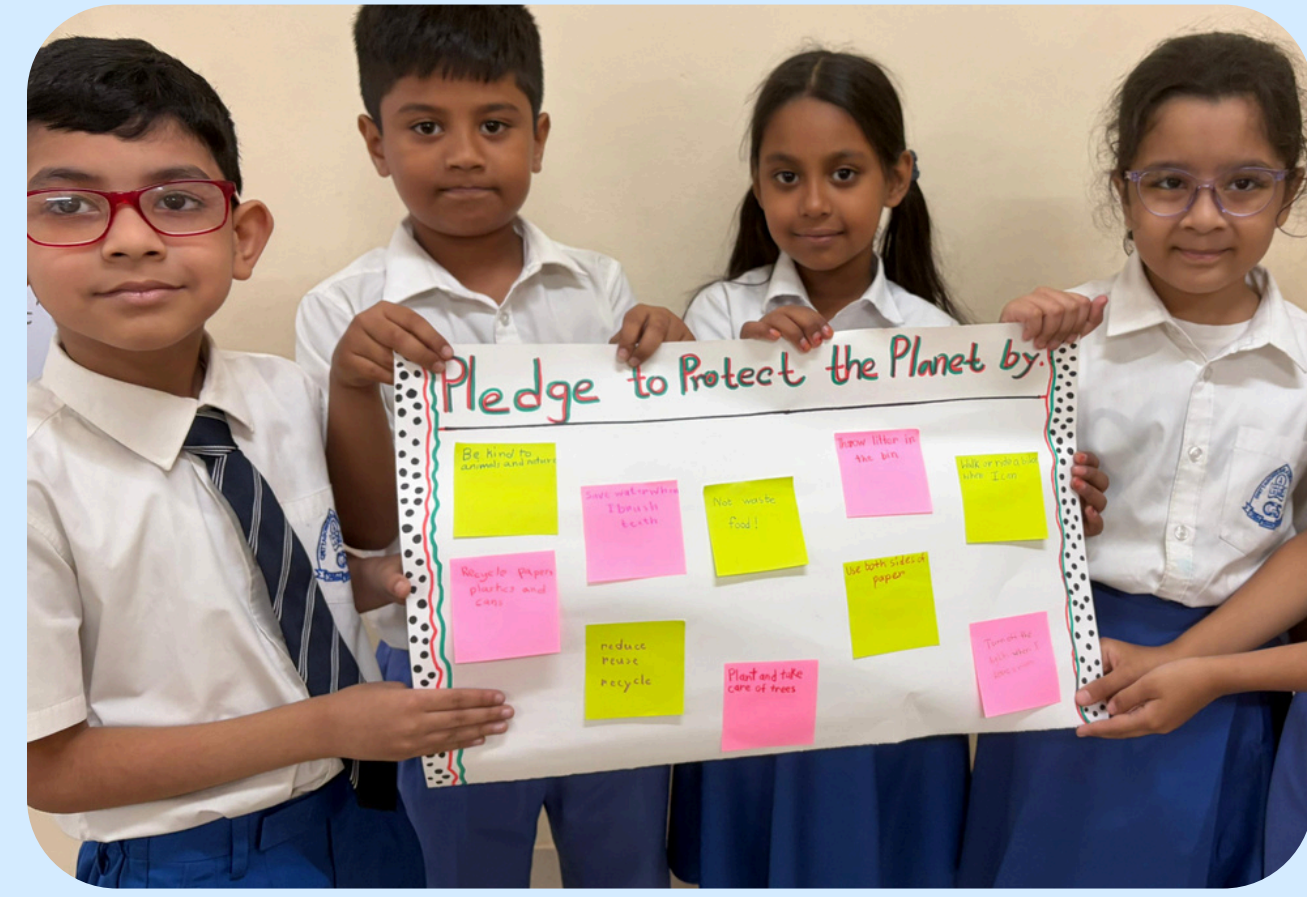

We encourage you to continue supporting your child at home through consistent routines, gentle encouragement, and conversations about their school experiences. Your involvement remains a key factor in their overall development and confidence.

Thank you for your ongoing trust, partnership, and cooperation throughout the year. We look forward to concluding the academic year on a positive and fulfilling note together.

Rasha Tariq

Music and Imaginative Play help our youngest learners (Pre-Play) build confidence, develop social skills, and nurture a genuine love for learning as part of their everyday experiences, while also strengthening communication, creativity, and emotional expression in a joyful and engaging environment. Together, these experiences lay a strong foundation for lifelong learning and holistic development.

World Earth Day was observed with our students through simple, engaging activities that reminded them the importance of caring for our planet.

Pajama Day in Lower brought comfort and cheer into every classroom. Learning felt extra fun as students enjoyed the day in their cozy outfits.

Building Focus and Patience in Nursery students through engaging hands-on activities that encourage concentration, persistence, and active learning.

MR Vaccine Lower and NC participated in the government initiative of 'Measles and Rubella Vaccination Campaign' held at CGS NC.

Regular Reading Classes are held to strengthen communication skills and spark curiosity in students, while also building confidence and a lifelong love for learning.

Crazy Hair and Silly Socks on special Thursday was full of fun and laughter as students came in with the most creative and colourful styles.
